What?

Practices and Policies based on local and regional initiatives that support STEM and STE(A)M education.

+88 activities
+20 policies

We collect, analyse and index evidence to substantiate innovative policies and practices

The screenshot shows the 'Educational Practices' web application. At the top, there's a title 'Educational Practices'. Below it, there are several filter dropdowns: 'STEAM discipline' (with options: Science, Technology, Engineering, Arts, Mathematics), 'Audience' (set to '- Any -'), 'Audience competence' (set to '- Any -'), 'Educational/Training framework' (with a dropdown menu open showing options like Kindergarten, Elementary/primary school, Middle/junior high school, Upper high school/lyceum, Further education, Higher education (college - university), Initial VET, Continuous VET, Adult education/life long learning, Teachers, and non-formal), 'Language' (set to '- Any -'), and 'Items per page' (set to '- All -'). An 'Apply' button is to the right of these filters. Below the filters is a table with columns: 'Title', 'Language', 'STEAM', 'Audience competence', 'Educational/Training framework', 'Language', 'Comments', and 'Rate this Practice'. The table lists five practices: 'Estimating the area of an irregular shape', 'Internet of things in Agrinio', 'Maria Sibylla Merian', 'The Catapult Challenge', and 'Robotic Village'. Each practice row shows its title, language, STEAM discipline, audience competence, educational framework, and a 'Rate this Practice' button with a green bar and the text 'No votes have been submitted yet.'.
